

PATIO AND EVENT  
LIGHTING PRODUCTS

SEASONAL  
SOURCE

## PATIO LIGHTING, CREATE AMBIENCE WITH LESS ENERGY

Seasonal Source introduces the new event lighting series designed for use in backyards, entertainment venues, parks, cafes, wineries, restaurants and wedding tents.

Our line offers rugged patio string light cable and energy-efficient LED lamps with classic “Edison” styling and appearance. Whether your client is a high-end patio café, an outdoor musical performance venue, a children’s zoo or a wine tasting facility, our products will enable you to create the right ambiance with dramatic energy efficiency.

Accent your installation with two new hanging display lights. The crab/cluster light series creates dramatic displays when suspended from overhead structures. Our impressive LED starburst spheres can be used for holiday accents or to create a wide variety of festive party atmospheres.

## PATIO LIGHTING PRODUCTS: WIRE & LAMPS

### COMMERCIAL-GRADE PATIO LIGHTING WIRE

This heavy-duty wire offers E26 sockets spaced every 24” to create impressive lighting displays for events and facilities of all types. String across pergolas, shade structures or beams. Or use with a supporting cable to span long distances.

- Available in 54’ and 108’ lengths. Length includes 6’ lead. Not end-to-end connectable.
- Suspended socket design with 4” drop. Includes an eyelet for optional cable wires to go through to provide additional support to hold up the string lights. The drop lowers the socket to help provide better illumination.
- 16 gauge wire. UV resistant wire and sockets resists sunlight exposure. Wire rated to 960 watts.
- Soft edges to sockets ensure weather-tight seal around thread-in lamps.
- Adaptable for both indoor (interior) and outdoor (exterior) use.
- Designed for use with the LED lamps listed below.

E26S-24L  
E26S-50L

#### Description

54’ E26 Black Socket Wire with 24” spacing with 24 4” suspended sockets  
108’ E26 Black Socket Wire with 24” spacing with 50 4” suspended sockets  
6’ lead length

### S14 CLASSIC “SIGN LAMP” SHAPE LED BULBS

Used in signs, marquees and in overhead string lights for decades, the shape of the Classic S14 sign lamp is timeless. Now you can get the look of those lamps in long-life, energy-efficient LED.

- Bulbs can be used for new installations or retrofits of existing installations.
- 1.1 watt consumption per bulb (compares to 11 watts typical S14 incandescent), only 10% of the normal consumption!
- Smooth, transparent appearance matches classic “Edison” lamps.
- Medium-base E26 socket.
- Each lamp contains 16 LEDs for maximum light output.
- Mix and match colors for special themes, events and more.

Remote Color Change C9

### REMOTE COLOR CHANGE BULBS

Innovative new bulbs respond to a command from a hand-held remote control and instantly change their color with a press of a button. Click to cycle the bulbs through white, red, yellow, blue, red, or green. Or activate the color-change effect mode so the bulbs change themselves.

- Change the look or theme of outdoor and event lights instantly. Start the evening with white ambient light, then click to change the mood. The possibilities are almost limitless.
- For event or holiday use.
- Each set of 25 bulbs is addressed to a specific remote control (included)
- .96 watts per bulb.

Part #	Description
LED-C9-RCC	Remote Color Change Bulb, C9 style, 7 colors
LED-G40-RCC	Remote Color Change Bulb, G40 style, 7 colors

## EVENT LIGHTING SPECIALTIES

### LED SPHERES

Eye-catching 7.5" diameter LED light orbs create a dramatic lighting impact with 120 5mm LED lights surrounded by decorative florets. These broadcast dazzling light effects and are effective in singles or multiples. Choose from multiple colors for special themes. Rated for indoor or outdoor use.

- White wire, florets match color of led light.
- 72" lead wire with 2' hanging support cord.
- Very energy-efficient; only 9.6 Watts per sphere!

Part #	Description	Part #	Description
